-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM  
 THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Drawings***

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the reference character 152 which is found on page 5 of the specification.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Specification***

2. The disclosure is objected to because of the following informalities: The reference character 154 in figure 5 is not described in the specification.

Note: It appears that the objections to the drawings and the specification can be corrected by changing the reference character 152 to - -154- - on page 5 (and anywhere else it appears) in the specification.

Appropriate correction is required.

3. The specification is objected to because in line 4 of paragraph 0013 of page 3, the "drum 30" should be changed to - -drum 24- - to be consistent with the previous sentences.

Appropriate correction is required.

4. The disclosure is objected to because of the use of the term "drum" for what is commonly called the rim of the wheel. It is known that the term "drum" is occasionally used in the art, but this part of the wheel is almost universally called the "rim." It is suggested that Applicant used the phrase - -rim or drum- - in at least the first few instances of the use of the term drum, at least occasionally throughout the specification in order to make it clear that this part of the wheel is the rim so that a text search can locate this document when it is published.

Where applicant acts as his or her own lexicographer to specifically define a term of a claim contrary to its ordinary meaning, the written description must clearly redefine the claim term and set forth the uncommon definition so as to put one reasonably skilled in the art on notice that the applicant intended to so redefine that claim term. *Process Control Corp. v. HydReclaim Corp.*, 190 F.3d 1350, 1357, 52 USPQ2d 1029, 1033 (Fed. Cir. 1999).

***Allowable Subject Matter***

5. Claims 1-24 are allowable over the prior art of record.

Art Unit: 3617

***Conclusion***

6. This application is in condition for allowance except for the formal matters noted in paragraphs 1-4 above

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references show rims with reinforcing members attached thereto.
